

Patent Attorney – Electrical Engineering or Computer Science

Cantor Colburn LLP, one of the largest full-service intellectual property law firms and the 4th largest patent law firm in the country, seeks a patent attorney or agent with a degree in electrical engineering for our Houston, Texas office. The firm's clients are among the leading companies in the U.S. and around the world, including Fortune 100 companies, privately held companies, select high tech start-ups, and university technology transfer offices.

The attorney or agent will be responsible for drafting and globally prosecuting patent applications in the electrical and/or computer science arts as well as occasionally preparing invalidity, infringement, and freedom-to operate analyses. Experience with radar/lidar and/or autonomous vehicle technologies is a plus.

The successful candidate will have a JD or be admitted to the patent bar as an agent and a degree in electrical engineering and/or computer science. Applicants must be registered to practice before the U.S. Patent and Trademark Office and have domestic and international prosecution experience. Candidates must also have excellent academic credentials and strong writing skills. Competitive salary and benefits package.

Cantor Colburn LLP is an Equal Opportunity / Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, national origin, disability or protected veteran status.

Resumes should be sent to Serena Proulx, Office Manager at sproulx@cantorcolburn.com.
